

# ONE WORLD SCHOOLS PROJECT

Groundwork Solent is an environmental charity working throughout Hampshire to improve the lives of local people and the communities in which they live. Through our One World Schools programme we aim to educate young people on the benefits of sustainability and improve their appreciation of their environment.

We offer a range of educational sessions, covering recycling, sustainability, environmental improvements and environmental science, supporting areas of the National Curriculum.

Our sessions range from single sessions up to term-long projects.

## B1. Roots and stems and leaves and flowers

Key stage 1 & 2

This long project looks at plant biology and food chains in the classroom, before encouraging your class to use what they have learned to design and build a sustainable vegetable garden in the grounds of the school

## G1. Rivers, Floods and People

Key stage 1, 2 & 3

This single session uses practical modelling to help your class understand river structure, then moves on to look at land use, flooding and sustainable development.

## G2. Waste Strategy

Key stage 1 & 2

This single session encourages your class to look at what they throw away. Analysing the school's waste stream they will develop a Waste Strategy for the school.

For more information please contact  
Tim Cooper  
Programme Manager  
Groundwork Solent

## G3. Traffic at My School

Key stage 1&2

This single session asks your class to take an overview of the problems traffic causes around your school, before deciding what they can do to help.

## G4. Traffic at My School project

Key stage 1&2

This term-long project takes an in-depth look at the problems traffic causes around the school and how people travel to and from the school every day. The class will gather data and use this to create plans to reduce traffic around the school.

## G5. Planning Change Key stage 2&3

This single session will give your class an insight into the land-use planning system, using local examples to add a more practical aspect to proceedings.

Any of the above sessions may be adapted to suit older or younger age groups.

For further details on any of these sessions or if you require a bespoke programme please contact Groundwork Solent on 02392 617020 or email:  
Gospport@groundwork.org.uk

### BOOKING FORM

Contact name				
School name				
School address				
Tel No.				
Email address				
Session(s) required				
Date(s)				

Sessions are charged at £65 + VAT per single session or £390 + VAT per project based on 30 pupils per class and six weeks per project unit. Cost of gardening materials for programme B1 are not included in this price and are dependent on the resources available at the site. Project sessions are single lessons spread over a six lesson period, unless agreed otherwise. All prices are exclusive of VAT.

Please return completed booking forms to  
Groundwork Solent,  
49 Stoke Road,  
Gospport,  
Hants.
